

Employee ID: ACFS2395

Name: Pavankumar Y G

Role: Jr.Software Engineer

ABOUT JIRA:

- JIRA is an incident management tool.
- JIRA is developed by Atlassian Inc. an Australian Company.
- JIRA is a platform independent tool; it can be used with any OS.
- JIRA is multi-lingual tool – English, French, German, Japanese, Spanish, etc.
- JIRA supports MySQL, Oracle and SQL server in the backend.

USE OF JIRA:

- JIRA is used in Bugs, Issues and Change Request Tracking.
- JIRA can be used in Help desk, Support and Customer Services to create tickets and track the resolution and status of the created tickets.
- JIRA is useful in Project Management, Task Tracking and Requirement Management.
- JIRA is very useful in Workflow and Process management.

To create a project, the user should login as a JIRA Service Desk Admin and then Click on Project → Create Project OR Login with email then give some name it will automatically create project name The following screenshot shows how to reach to the Create Project

Select a Template for your first project, in that select scrum

Below screenshot shows the template selection:

After the creation of project, you need to add scrum names which the work you have to assign your team members.

In that you can add issues, sub modules and assign the tasks to your team members by through their mail id

The screenshot shows the Jira Software interface for a project titled "My Scrum Project". The left sidebar includes sections for PLANNING (Timeline, Backlog, Board), DEVELOPMENT (Code, Project pages, Add shortcut, Project settings), and general links (Add shortcut, Project settings). The main area displays a backlog with items like "SCRUM-1 header", "SCRUM-2 Home Page", etc. A modal dialog box titled "Add People to My Scrum Project" is open, prompting for "Names or emails" (e.g., Maria, maria@company.com) and "Role" (Administrator). Below the input fields, a note states: "You're inviting people as admins. Admins can set up projects, add more people, install apps, and upgrade plans. Alternatively, you can invite people as users." At the bottom of the dialog are "Cancel" and "Add" buttons. The system status bar at the bottom shows it's 5:50 PM on 9/5/2023, with a temperature of 25°C.

This screenshot is identical to the one above, but the "Names or emails" input field now contains four email addresses: "kokantisuresh2299@gmail.com", "konkatiswathi283@gmail.com", "rasoolreddy1998@gmail.com", and "suryasuri1544@gmail.com". The "Add" button has been replaced by "Add 4 people". The rest of the interface and status bar are the same as the first screenshot.

CREATE WORKFLOW:

To create workflow, go to scrum module name, right side there is To Do option, click on that then click on workflow to create status

I have added testing and QA-Testing-Rejected and then adjust your workflow sheet

Adjust workflow:

In the below screenshot I have created project and assigned work to my team member's.

The screenshot shows the Jira 'Backlog' page for the 'My Scrum Project'. The left sidebar has a 'PLANNING' section with 'Timeline' and 'Backlog' selected. The main area shows a 'Backlog' board with a 'SCM Sprint 1' column containing nine issues. One issue, 'SCRUM-2 Home Page', is assigned to 'Pavankumar Y G'. A 'Quickstart' button is visible at the bottom right of the board.

After starting the sprint all the issues moves to board, then the workflow will start's

Last stage of the workflow

The screenshot shows a Jira Agile board titled "SCRUM Sprint 1". The board has four columns: "TO DO", "IN PROGRESS", "TESTING", and "QA-TESTING-REJECTION". The "QA-TESTING-REJECTION" column is currently active. A sidebar on the left shows project navigation and settings. The board interface includes a search bar, filter buttons, and a status indicator showing "4 days remaining" and "Complete sprint". The task list in the QA column contains 9 items, all of which are marked as completed (indicated by a green checkmark and a blue circle). The tasks listed are: Header, contact, aboutus, registration, login, Home Page, plants, seeds, and fruits.

Thank You
